III. Group Projects
Course attendees will participate in a group project. The purpose of the group project is to apply the analytical tools developed in the course to a live country case study that exemplifies one or more pension reform challenges and enabling conditions. Participants will evaluate country information which will need to be supplied by country representatives (and supplemented by Bank-supplied studies and data as possible). Group representatives will present their summary findings at the end of the course.
Please check the category which best describes your learning objective for the group project:

A. I want to apply the analytical tools provided by the course to my country’s experience.

B. I want to learn from the experience of other countries which are facing similar policy or implementation challenges as my own.

C. I want to learn from the experiences of countries that are at a more advanced stage in the development of their pension system.

D. I want to share some of the experience in my country with a group that is facing similar challenges.
Please indicate if you are willing to lead a group project from the following options:

A. Uganda  
B. Tanzania  
C. Ghana  
D. Liberia  
E. Sierra Leone  
F. DRC  
G. Madagascar  
H. Indonesia  
I. Georgia  
J. Poland
