Exercise

• We are in the process of writing policy recommendations for Timor-Leste and need your help.

• There are a number of options open to Timor-Leste in order to reduce the prevalence of a double shift system in public schools. **For this exercise consider how could the private sector be engaged?**

• Select one type of private sector engagement: Government funded private schools, charters or vouchers.
  – Government funded private schools- Government funds places at a private school
  – Charters- Private sector manages a public school under a contract for a fixed term period
  – Vouchers- Funding follows the student to the private school of their choice

• Please answer the following:
  • How should phasing and sequencing work? (timeframe)
  • How could you build trust and partnership between government and private sector?
  • How would you ensure the poor and marginalized are not excluded?
  • How will private providers be held accountable?

• You have 35 minutes, use your time wisely!!
