About me...

- Information Technology Professional with over 6+ years of experience.
- Master’s in Engineering Management from The Catholic University of America, Washington DC.
Remote Project Monitoring using Satellite Imagery

Wold Bank Group
Geospatial Platform-
This is a proposed solution to monitor AOI in reference to project locations.

As a user you can -
1. Select a project of your interest
2. Select AOI to monitor project locations.
3. Select Satellite, duration and frequency to monitor -
User can see Imagery collection based on the date and frequency selection.
