

What's Next?

- **Assisting client countries to meet or raise ambition of Paris targets**
 - Climate auctions on the national or sub-national level
 - Funded by domestic finance or blend of international climate finance with domestic resources

- **Nitric Acid Climate Auctions Program**
 - Eligible countries to be determined by political commitments between Nitric Acid Climate Action Group (Germany) and host governments that agree to continue abatement of N₂O from nitric acid production beyond 2024

- **Other sectors: energy efficient green buildings**
 - Climate assets beyond CO₂e: certification standards including Excellence in Design for Greater Efficiencies, LEED, etc.
