Circular economy and tourism – towards recovery, sustainability and resilience
 Responsible Recovery for People, Planet and Prosperity

**People**
- Public health
- Social inclusion

**Planet**
- Biodiversity conservation
- Climate action

**Prosperity**
- Circular economy
- Governance and finance

Transition to a more sustainable tourism model based on social inclusion and the restoration and protection of the environment.
Circular Economy and Tourism

Building tourism back better

Businesses
- Competitiveness
- Responsibility

Destinations
- Wellbeing
- Positioning

Tourists
- Purpose
- Transformation
Accelerating the adoption of circular economy principles, policies and practices is essential if we are to make progress on the Sustainable Development Goals and fully implement the Paris Agreement. (UNIDO Regional Consultations November 2020)
Circular Economy and Tourism - New Research Field

How can we make better, longer use of the materials we utilize to deliver our service?
Circular Economy and Tourism – Policies and Strategies

Portugal National Tourism Strategy

Colombia National Sustainable Tourism Policy

Slovenia National Circular Economy Roadmap

Spain National Circular Economy Strategy

Circular Economy and Tourism – Policies and Strategies
Integrating Circular Economy principles and processes in tourism

Shift towards a circularity of plastics

Prioritize sustainable food approaches

Invest in transforming tourism value chains

Circularity as a strategy to embrace a sustainable and resilient pathway, in line with international decarbonization goals.

Our Call to Action
Eliminate problematic or unnecessary plastic items and packaging

Integrate reuse models or reusable alternatives

Engage the value chain to embrace reusable, recyclable, compostable

Request increased amount of recycled content across plastics used

Collaborate to increase plastics recycling and composting rates

Report publicly and annually on progress made
